Office Action Summary	Application No. 10/690,354	Applicant(s) POUTRE ET AL.	
	Examiner Victor Batson	Art Unit 3671	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Objections

Claims 24-26,29,30 are objected to because of the following informalities: In claim 24 line 4, "the tool support and mounting portion" lacks proper antecedent basis because antecedent basis has not been established to a mount portion.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Bierwith (5,134,793).

Bierwith discloses retaining structure including a wedge support 24, a sweep mounting portion 22 and a retainer 28 with the sweep mounting portion 22 including spaced retainer-receiving locations as shown in figure 4. It is further noted that figure 4 shows the use of spring members 68. Concerning claim 14, tooth 36 is considered a knock-on sweep. Concerning claim 24, lip 18 is considered the shank, and the mounting stem is considered the lip area around and including the mounting surfaces associated with hole 42 that interact with the wedge members.

Allowable Subject Matter

Claims 17-30 are allowed.

Response to Arguments

Applicant's arguments filed 9/19/05 have been fully considered they are persuasive regarding claims 18 & 24 but they are not persuasive regarding claim 14. Applicant argues that Bierwith shows a bucket tooth with a separate wedge that is not fixed with respect to the earth-working element and therefore does not disclose a retainer-engaging area that is fixed with respect to the sweep. The examiner does not agree and notes that when the apparatus is assembled, the entire assembly is fixed with respect to the sweep (tooth).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
